SUBJECT INDEX

A

Absorption of organic compounds, 399
Acetate-1-C^{14}, incorporation into fatty acids of epidermal cells, 132
Acid, fatty, effect on growth of *Corynebacterium acnes*, 48
Acid phosphatase
  activity, localization, in keratoacanthoma, 126
  in unkeratinized oral epithelium, 416
Acne
  lipid composition
    of comedones, 487
    of skin surface, 487
  pustular, bacteriology of, 252
Aging skin, effect of autotransplantation, 200
Albumin, rabbit serum, specificity of, 32
d-Aldosterone, intracutaneous, effect on eccrine sweat gland function, 450
Amino acid incorporation, effect of paromycin on, 405
Announcements
  Abridged Index Medicus, 102
  Acknowledgment, 102, 259
  Earl D. Osborne Fellowship, 441, 518
  Information Resource on Animal Models and Genetic Stocks, 101
  Meeting Dates, 101, 180, 259
  Notice, 260, 355
  Scientific Exhibits, 354
  Workshops, 260, 355
Anthralin, treatment of psoriasis, 410
Antibodies
  penicilloyl-specific IgG, 222
  rabbit, specificity to rabbit serum albumin, 32
  to haptene NIP, 103
Appendages, skin
  in bat wing, 1
  in vivo observations, 1
Atopy, granular layer thickness in, 11
Autotransplantation in aging human skin, 200

B

Bacteriology of pustular acne, 252
Benzyl alcohol, human percutaneous penetration of, 386
Biochemistry, epidermis, 24
Birefringence in trichoschisis, 496
Blood flow, cutaneous, in psoriasis, 381
Bulb resection, olfactory, 424

C

Canis familiaris, development of cutaneous and oral pigmentation, 304
Capsaicin
  effects on epidermal lysosomes, 170
  effects on human skin, 170
  effects on liver, 170
Castration, effect on epidermal neoplasms, 479
Cells
  basal, separation and cultivation of, 279
  differentiating, separation and cultivation of, 279
  epidermal
    effect of puromycin on, 405
    acetate-1-C^{14} incorporation into fatty acids, 132
  Langerhans
    degradation of exogenous protein by, 37
    intracellular transport of exogenous protein by, 37
    uptake of exogenous protein by, 37
  Merkel, ultrastructure, 150
  pigment, DNA, RNA and protein synthesis, 463
Comedones, lipid composition of, 487
Composition
  chemical, of skin surface lipids, 139
  lipid
    of comedones, 487
    of skin surface, 487
Compounds, organic, absorption through skin, 399
Contraction, isometric, of epidermis and stratum corneum, 298
Corynebacterium acnes
  effect of fatty acids on growth, 48
  fine structure, 338

D

Damage, DNA, in human skin disease, 181
Degeneration, malignant, behavior of virus in, 324
Dermatitic effect of nonionic surfactants, 510
Dermatitis, allergic contact
  from Compositae, 233
  from *Frullania*, 233
Dermatoglyphics, review, 261
Dilatation, cutaneous arteriolar, by ultraviolet irradiation, 332
Dithranol, effect on glyceraldehydephosphate dehydrogenase and glucose-6-phosphate activities, 121
DNA
  in light sensitive skin disease
    damage, 181
    repair, 181
  synthesis
    effect of puromycin on, 405
    of pigment cells, 463

E

Ehlers-Danlos syndrome, connective tissue disease in animals, 377

XUM

Epidermis
biochemistry
ammonia content, 24
free amino acids, 24
pyrrolidone carboxylic acid content, 24
urea content, 24
isometric contraction of, 298
Epidermodysplasia verruciformis, malignant degeneration in, 324
Epithelium, unkeratinized, acid phosphatase levels in, 416

F

Flora, skin, techniques for sampling, 160

G

Gland, sweat
eccrine
effect of intracutaneous d-aldosterone, 450
effect of intracutaneous hydrocortisone, 450
training, in paraplegics, 229
variations in, 443
Glucocorticoids
and Hageman factor activation of human plasma kallikrein, 196
and kinin formation, 196
Glucocorticosteroid treatment of psoriasis, 410
Glucose-6-phosphate dehydrogenase activities in psoriasis and neurodermatitis, 121
Glycosaminoglycans, dermal, in psoriasis, 316
Glyeraldehydephosphate dehydrogenase, activities in psoriasis and neurodermatitis, 121
Granular layer thickness
in atopy, 11
in ichthyosis vulgaris, 11

H

Haarscheibe, human, ultrastructure, 150
Hageman factor activation
and glucocorticoids, 196
of human plasma kallikrein, 196
Hailey-Hailey disease, electron microscopic study, 368
Hair
cycle, human, 65
defect, congenital trichoschisis, 496
diseases, mechanical properties, 248
root, cell-free protein synthesis, 108
waves, olfactory bulb resection, 424
Haptene NIP, antibody to, 103
Histamine, skin, influence of anti-lymphocyte serum, 178
Hydrocortisone, intracutaneous, effect on human eccrine sweat gland function, 450

I

Ichthyosis, granular layer thickness in, 11
Infections, skin, experimental production of, 319
Inflammation, ultraviolet, 365
International Pigment Cell Conference, abstracts, 82
Irradiation, ultraviolet, cutaneous arteriolar dilatation, 332

K

Kallikrein, human plasma, Hageman factor activation of, 196
Keratinocyte, phagocytic nature, 272
Keratoacanthoma
untreated, localization of acid phosphatase activity, 126
vitamin A acid treated, localization of acid phosphatase activity, 126
Kinin, formation, by Hageman factor activation, 196

L

Lactones, sesquiterpene, in allergic contact dermatitis, 233
Lipase, pancreatic, inhibition of, by tetracyclines, 413
Lipids
human skin surface
anatomical variation, 240
chemical composition, 139
of comedones, 487
of skin surface, 487
Lipogenesis, cutaneous, model systems, 288
Lipolysis, in organic solvents, 395
Liver, effects of capsaicin, 170
Lysosomes, epidermal, effects of capsaicin, 170

M

Melanocytes, ultraviolet irradiated, 213
Melanogenesis, 213
Methylcholanthrene, induction of epidermal neoplasms by, 479
Mitotic index, effect of puromycin on, 405

N

Nature, phagocytic, of keratinocyte, 272
Neoplasms, epidermal, effect of castration on, 479
Neurodermatitis
glucose-6-phosphate dehydrogenase activities in, 121
glyceraldehydephosphate dehydrogenase activities in, 121
Newborns, transepidermal water loss, 483

O

Occlusion, treatment of psoriasis, 410

P

Paraplegics, eccrine sweat glands in, 229
Penetration, human percutaneous, of benzyl alcohol and testosterone, 386

XUM

Phenomenon, delayed blanch, in children, 256
Phospholipids, in cultured guinea pig skin, 174
Photobiology, cell, tissue culture techniques, 164
Photosensitivity, salicylanilide, 145
Phototoxicity, cell, tissue culture techniques, 164
Pigmentation
  cutaneous, in fetal dogs, 304
  oral, in fetal dogs, 304
Program
  Spring meeting, Society for Investigative Dermatology, 346
  Thirty-first Annual Meeting, 427
Protein
  exogenous
    degradation by Langerhans cells, 37
    intracellular transport by Langerhans cells, 37
  uptake by Langerhans cells, 37
  synthesis of pigment cells, 463
Protoporphyria, hepatic, 53
Psoriasis
  cutaneous blood flow in, 381
  dermal glycosaminoglycans in, 316
  glucose-6-phosphate activities in, 121
  glyceraldehydephosphate activities in, 121
  mitotic index of, 410
Puromycin
  effect on amino acid incorporation, 405
  effect on DNA synthesis, 405
  effect on mitotic index, 405

R

Radioactive tracer techniques, nonionic surfactants, 510
Repair, DNA, in human skin disease, 181
Retention, epidermal-dermal, 386
Ridges
  epidermal
    clinical significance, 261
    genetics, 261
RNA synthesis, of pigment cells, 463

S

Salicylanilide photosensitivity, 145
Serum, anti-lymphocyte, influence on skin histamine, 178
Skin
  effects of capsaicin, 170
  surface, lipid composition of, 487
Society for Investigative Dermatology
  Spring program, 346
  Thirty-first Annual Meeting, program, 427
Solvents, organic, lipolysis in, 395
Specificity, dermal, 472
Stratum corneum
  isometric contraction of, 298
  regional differences
    in age effects, 19
    in sex effects, 19
    of cell sizes, 13, 19
Sulfur, low content, in trichoschisis, 496
Surfactants, nonionic dermatitic effect, radioactive tracer techniques, 510
Sweat glands
  eccrine
    effect of intracutaneous d-aldosterone, 450
    effect of intracutaneous hydrocortisone, 450
    training, in paraplegics, 229
Synthesis, cell-free protein, hair root, 108

T

Testosterone, human percutaneous penetration of, 386
Tetracyclines, inhibition of pancreatic lipase, 413
Tissue
  connective, disease, in animals, 377
  culture, in cell photobiology and phototoxicity, 164
Trichoschisis, 496

U

Ultrastructure
  human *Haarscheibe*, 150
  localization of acid phosphatase activity in keratoacanthoma, 126
  Merkel cells, 150
Ultraviolet, reaction of salicylanilide, 145
Unresponsiveness, immunological, dermatologic implications of, 355

V

Virus, behavior in malignant degeneration, 324

W

Water loss, transepidermal of human newborns, 483

X

^{133}Xenon, cutaneous blood flow measured by, 381

SUBJECT INDEX

A

Acid
  amino
    incorporation
      effect of methotrexate, 141
      in protein synthesis, 425
  fatty, role of aerobic microflora, 173
  imidazoleacrylic, increase after insolation, 39
  urocanic, increase after insolation, 39
Activity, sebaceous, during fasting, 303
Aerobes, scalp, and free fatty acids, 173
Aflatoxins, induction of hypersensitivity, 396
Announcements
  Acknowledgment, 71, 202, 358
  A.M.A. Section on Dermatology, 290, 358, 452
  European Society for Dermatological Research, 290, 452
  Meeting Dates, 358, 452
  Proposed Seminar/Workshop on Audiovisuals, 289
Autoimmune disease
  immunologic reactivity, 317
  reticuloendothelial function, 317

B

Baldness, in stumptailed macaque, 329
Beryllium, granulomatous, hypersensitivity to, 284
Blister fluids, proteins in, 244

C

Capillaries
  fenestrated, in human scalp, 354
Carcinogenesis, intramitochondrial dense body, 26
Catecholamines
  in dermis, 188
  in epidermis, 188
  in hair cycle, 339
  in whole skin, 188
Catechol-o-methyl transferase in patients with psoriasis, 147
Cell culture, fetal mouse skin growth in, 379
Cells
  pigment
    differentiation, 444
    proliferation, 444
Chlorpromazine, photoreactions, 47
Composition, lipid, variations in, 269
Collagenases
  animal, 359
  human, 359
Coumarins, induction of hypersensitivity, 396
Cutaneous infection, experimental induction, 149

D

Dense body, intramitochondrial in carcinogenesis, 26
Deoxyribonuclease I, skin surface, increases in, 89
Depigmentation
  experimental, 190
  radiation, effect of hair growth cycle on sensitivity, 410
Deprivation, caloric, sebaceous gland response, 303
Detergents, action of, on stratum corneum, 101
Diffusion chambers, intraperitoneal, skin in, 57
Dimethyl sulfoxide, stabilization of cytochrome oxidase, 260
DNA, nuclear, ultraviolet-induced damage, 439
DOPA autoxidation, natural inhibitor, 153, 159

E

Electron microscope, *in vivo* bound globulins in systemic lupus erythematosus, 325
Enzymes, uronic acid pathway, 179
Epidermis
  cattle hoof, stratum granulosum, 350
  effect of methotrexate, 141
  lipid composition, 269
  mammalian protein synthesis in, 291
Epithelialization, small wounds, 20
Eruptions, morbilliform, caused by penicillin, 390

F

Fasting, sebaceous activity during, 303
Ficoll, stabilization of cytochrome oxidase, 260
Follicle
  hair
    induction of by dermal papillae, 374
    protein synthesis in, 419, 425
Function, reticuloendothelial, in autoimmune disease, 317
Furazolium, induction of hypersensitivity, 396

G

Gland
  costovertebral, metabolism, 13
  sebaceous
    metabolism, 13
    response to caloric deprivation, 303
  sweat, sodium transplant, 53
Globulins, *in vivo* bound in systemic lupus erythematosis, 325
Glycosaminoglycans and psoriasis, 274

H

Hair
  cycle, catecholamines in, 339
  dermatographic invasion of, 123
  dynamic sonic modulus, 256
  follicles
    induction by dermal papillae, 374
    metabolism of testosterone in, 329

XUM

growth and shaving, 170
mechanical properties, 256
Herman Beerman lecture, Embryonic inductions in relation to determination, 221
Hormone, antidiuretic, effect on eccrine sweating, 344
Hydrolysis, enzymatic, of α-protein, 184
Hyperlipoproteinemia associated with xanthomatosis, 71
Hypersensitivity
contact, lymphocyte responses, 34
granulomatous, to beryllium, 284
induction
by aflatoxins, 396
by coumarins, 396
by furazolium, 396
Hyphal wall, ultrastructure, *Trichophyton mentagrophytes*, 404

I

Inductions, embryonic, 221
Inhibitor, natural, of DOPA autoxidation, 153, 159
Invasion, dermatographic, of hair, 123
β-Irradiation injury, skin surface DNase I after, 89

J

Junction, dermal-epidermal, *in vivo* bound globulins at, 325

K

Keratoacanthoma, vitamin A acid uptake in, 249

L

Lipids, in epidermal water barrier, 135
Lupus erythematosus, *in vivo* bound globulins, electron microscope localization, 325
Lymphocyte
responses in contact hypersensitivity, 34
transformation *in vitro*, 198

M

Melanin, synthesis, peroxidase vs. tyrosinase, 1
Melanocyte
epidermal, ultrastructure, 265
in normal skin, 65
Metabolism
hormonal control, in costovertebral glands, 13
of testosterone, in hair follicles, 329
sebaceous gland, 13
Methotrexate and the epidermis, 141
Mice, F_1, transplantation of fetal mouse skin, 379
Microflora, aerobic, in fatty acids, 173
Modulus, dynamic sonic, of hair, 256

N

Nail, physical properties of, 115
Nucleotides, nicotinamide adenine histochemistry, 277

P

Papillae, embryonic dermal, induction of hair follicles by, 374
Penicillin causing morbilliform eruptions, 390
Peroxidase vs. tyrosinase in melanin synthesis, 1
Photoreactions, chlorpromazine, 47
Phototoxicity of topically applied agents, 335
Polysomes, protein synthesis in hair follicle, 425
Presidential address, Something old, 203
Protein
blister fluids, 244
follicle
characterization, 419
extraction, 419
synthesis, in mammalian epidermis, 291
α-Protein
enzymatic hydrolysis, 184
Psoriasis
and glycosaminoglycans, 274
catechol-o-methyl transferase in, 147

R

Reactivity, immunologic, in autoimmune disease, 317
Rhus striata, biological activity, toxicity *vs.* hypersensitivity, 94

S

Sensitivity, radition depigmentation effect on, 410
Septum, ultrastructure, *Trichophyton mentagrophytes*, 404
Shaving and hair growth, 170
Skin
culture, transplants, 310
infection, experimental, 149
in intraperitoneal diffusion chambers, 57
mouse, fetal
growth in cell culture, 379
transplantation to F_1 mice, 379
normal, melanocytes in, 65
Society for Investigative Dermatology, 31st annual meeting, 226
Sodium transport in sweat gland, 53
Something old, 203
Spectrum, action of ultraviolet induced damage to nuclear DNA, 439
Stratum corneum
effects of detergents on, 101
effects of subtilisin on, 101
Stratum granulosum, from cattle hoof epidermis, 350
Subtilisin, action of, on stratum corneum, 101
Sunscreen
protection from longwave ultraviolet, 164
recovery studies, 31
Sweat
electrolyte composition
pharmacologically stimulated, 433
thermally stimulated, 433

XUM

Sweating
  eccrine, effect of antidiuretic hormone, 344
  symmetry on back, 282
Synthesis
  epidermal protein, 291
  protein in hair follicle, 419, 425

T

4-Tertiary butyl catechol depigmentation from, 190
Testosterone, metabolism in hair follicles, 329
Transformation, lymphocyte, *in vitro* by nickel acetate, 198
Transplantation, skin culture, 310
Trichophyton mentagrophytes
  hyphal wall, ultrastructure, 404
  septum, ultrastructure, 404
Tyrosinase vs. peroxidase, in melanin synthesis, 1

U

Ultraviolet light
  damage to nuclear DNA, 439
  longwave, sunscreen protection, 164
  phototoxicity of locally applied agents, 335
Uronic acid, pathway, enzymes of, 179

V

Vitamin A, acid uptake in keratoacanthoma, 249

W

Water barrier, epidermal, lipids in, 135
Wounds, small, epithelialization, 20

X

Xanthomatosis associated with hyperlipoproteinemia, 71
